Summary

Computer Engineering graduate with strong expertise in C#, ASP.NET Core, MVC, and SQL Server. Experienced in building scalable REST APIs, implementing authentication systems, and developing full-stack web applications. Focused on performance optimization, clean architecture, and real-world problem solving.

Experience

.NET Developer Trainee — CIIT Institute, Pune Jul 2025 – Dec 2025

- Built a centralized enquiry management system supporting Applicant, Admin, and HR workflows
- Developed RESTful APIs using ASP.NET Core, Entity Framework Core, and SQL Server
- Implemented role-based access control and automated application tracking
- Improved system efficiency by reducing manual processing through workflow automation

Robotics Intern — SNJB's College of Engineering, Nashik Jan 2023 – May 2023

- Designed control logic for robotic automation systems handling real-time object processing
- Developed automation workflows improving operational efficiency in robotic systems

Projects

Task Management System (Full Stack) Oct 2025 - Dec 2025

- Built responsive UI using HTML, CSS, Bootstrap, and JavaScript integrated with Web APIs
- Implemented task creation, tracking, and update features using REST APIs

Centralized Enquiry API System Aug 2025 - Sep 2025

- Developed 10+ REST API endpoints with ASP.NET Core and Entity Framework Core
- Built role-based workflows with automated status tracking and application assignment
- Reduced manual tracking effort by 30% through workflow automation

STUDENT RECORD MANAGEMENT SYSTEM (MVC+API) Jan 2026 - Feb 2026

- Developed Student Management System using C with CRUD operations and SQL Server.
- Built Student Management System to manage student data using ASP.NET and database integration.
